Bidder Query	EACC Response
-The items in the system are contradicting from the ones in the document -The quantity of items is also different. -The section of lines where the items are supposed to be listed so we can give the unit price, seems like the document for service maintenance was loaded there in all five lines thus we can't give price based on tender document instead of item.	-The Tender document has been amended to reflect the updated Technical requirements plus quantities and the same as been aligned with IFMIS lines. - Also the technical specifications have been revised. Kindly take note to use the updated specifications.
Tender security to be paid has been given but clause 2.14.2 states tender security shall be in the amount of two (2%) of the tender price	The tender security for this tender is Kes 45,000. This information has given on page 18 on Particulars of appendix to instructions to tenderers
